### How risky is it?

The value of the fund can go down as well as up. You could lose money.

One way to gauge risk is to look at how much a fund's returns change over time. This is called "volatility".

In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.

### Risk rating

Davis-Rea Ltd. has rated the volatility of this fund as **low-medium**.

This rating is based on how much the fund's returns have changed from year to year. It does not tell you how volatile the fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the fund's returns, refer to the Risk section of the fund's simplified prospectus.

### No guarantees

Like most mutual funds, this fund does not have any guarantees. You may not get back the money you invest.

### How has the fund performed?

#### A word about tax

In general, you'll have to pay income tax on any money you make on the fund. How much you pay depends on the tax laws where you live and whether or not you hold the fund in a registered plan, such as a registered retirement savings plan or a tax-free savings account.

Keep in mind that if you hold the fund in a non-registered account, fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

#### How much does it cost?

The following tables show the fees and expenses you could pay to buy, own and sell Class O units of the fund. The fees and expenses - including any commissions - can vary among classes of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other classes of units and other funds that may be suitable for you at a lower cost.
